## Highlights

500+ delegates from 50+ countries  
250+ papers  
30 parallel sessions  
Keynote lectures by eminent intl. speakers

### Four technical workshops (at IIT Madras)

Two workshops on Sep. 4th

- Workshop on "Limestone calcined clay cement (LC<sup>3</sup>)"
- K.P. Pradeep Memorial Workshop on "Textile reinforced concrete (TRC) systems"

Two workshops on Sep. 8th

- Carmen Andrade Workshop on "Corrosion control in concrete structures (C<sup>3</sup>S)"
- Luigia Binda Memorial Workshop on "NDT and repair for ancient & modern heritage structures"

## Conference Themes

- Advances in supplementary cementing materials
- Concrete durability and performance specifications
- Early age behavior and rheology of cementitious systems
- Special concrete and applications
- Advances in characterization of construction materials
- Sustainable building systems
- Bituminous binders and mixtures
- Repair and conservation of heritage structures
- Corrosion control and monitoring in concrete structures
- Repair materials and repair systems for concrete structures

## About RILEM Annual Weeks

- RILEM Week is the annual meeting of the standing committees of RILEM (*International Union of Testing and Research Laboratories for Materials and Structures*). Such meetings occur every year in conjunction with a major international conference. The recent RILEM weeks were held in Copenhagen (2016), Melbourne (2015), São Paulo (2014), Paris (2013), Cape Town (2012), Hong Kong (2011). This year, IIT Madras is organizing the ICACMS (Intl. Conference on Advances in Construction Materials and Systems) - as part of the 71st RILEM Week during Sep 3 - 8, 2017, in Chennai
- It provides a great opportunity to interact with some of the top minds in construction materials and systems, and get information on the latest path-breaking developments.
